

# FP .../... APG + AP800

MIGUTAN WITH LOAD-TRANSFERRING COVER PLATES

# MIGUTAN

WATERTIGHT EXPANSION JOINT SOLUTIONS

## Description

Solid stainless steel cover plates for various loads in different thicknesses

## Material

Stainless alloy 1.4301 Legierung, 1.4571 available on demand.

## Surfaces

Available with various anti-slip surfaces on demand

## Design

Chamfered APG cover plates available on demand starting from a thickness of 4 mm

Cover plate	FP(G) 80	FP(G) 90	FP(G) 110	FP130	FP155
APG 3 mm	X	X	X	X	X
APG 4 mm	X	X	X	X	X
APG 5 mm	X	X	X	X	X
AP800 2,5 mm		X			
APS 4 mm	X	X	X		
APS 5 mm	X	X	X		
APS 6 mm	X	X	X		

All APS cover plates for MIGUTAN FP 80 to FP 110 available in 4, 5 and 6 mm thickness.  
In the design variants with these cover caps, no settlement movements can be absorbed.  
When using the APS cap, the horizontal movement is limited to  $\pm 10$  mm.  
APG and AP800: l=2,0 m, APS: l=1,90 m
