

High quality PVC compound expansion joint

Weldable, high chemical persistence

Double-barred

Twice as safe against water intake

Large movement capacity

Innovative profile allows for large movements; the adhesion remains low-strain

Maintenance-free

Welded connections and molded parts are particularly long-lasting

Fast installation

The optional installation tool facilitates clean and fast installation

Profile	Joint width b_f [mm]	Total movement Δb_f [mm]	Profile height h [mm]	Load bearing capacity  [kN]
CPS 50	50	50 (±25)	90	35
CPS 75	75	76 (±38)	120	35
CPS 100	100	100 (±50)	150	35
